Dear Susanne:

Thank you for finding the sports bra for me. It fits perfectly and is very comfortable. Finally a sports bra for larger women! I have never been able to find one in my size. I appreciate all your efforts to find products that are perfect for me. I also want to thank you again for your generous gift certificates for my birthday; what a great surprise they were.

I rave to my friends about what a great business you have and the fantastic service. The bra fitting service is invaluable. Finally thanks to you I am wearing bras that fit me properly and give me the support I need. The marks and dents in my shoulders are now gone thanks to having properly fitting bras.

I wish your business was located here in Halifax. There is only one business here that I have found that carries sizes for larger women such as my self but their pricing cannot compare to yours. Your pricing is very reasonable and your products a high quality, definitely worth every penny. And as I said, the service is outstanding. My friend was very impressed when she called you to get a gift certificate for my birthday and you knew right away it was me about whom she was talking.

Now that I will not be in Prince George as often because Len is moving here, I am glad that you have the website so that I can stay up to date on new products. I'm still on the hunt for some sexy lingerie and know I can count on you to find me something to fit if it exists. I really appreciate that you go above and beyond to find new things for me. And of course as I work to lose weight I will be looking for more new things. I will need to keep you up to date on measurements.

Thanks again for everything. Not only did I find the man of my dreams in Prince George, I found the perfect bra too. Your store and you are a great find.

Best regards,

Patty King
